Index March-December, 1973

Abdomen, injuries to, emergency care, Sept., 430–432
Abortion
  nurse and, Sept., 469–478
  nursing care prior to, Sept., 471
  patient teaching after, Sept., 475
  preparation of staff for, Sept., 471
  types of procedures, Sept., 470
Abruptio placentae, nursing care, Sept., 484–487
Achievement behavior, of total knee replacement patient, March, 124
Acidosis, diabetic, treatment, Dec., 591
Acquaintance process, between mother and newborn, Sept., 549–556
Addiction, drug, March, 25–52. See also *Drug abuse.*
    heroin, March, 41–52. See also *Heroin addiction.*
Adjustment, failures of, in young adult, March, 8
Administration, nursing service, June, 209–281
    changes in, and nursing practice, June, 227–234
      at Johns Hopkins Hospital, June, 209–218
    See also *Nursing service.*
Administrator, nurse as, June, 207
Adolescent. See also *Young adult.*
Adult, young, in today's world, March, 1–104. See also *Young adult.*
Airway
  emergency care of, Sept., 413–424
    cricothyroid stab, Sept., 419, 421
    endotracheal intubation, Sept., 419, 420
    tracheostomy, Sept., 422
  obstruction of, clinical indications, Sept., 415
Alcohol intoxication, acute, emergency treatment, Sept., 459
Alienation, in long-term illness, Dec., 583
Ambulatory care. See *Outpatient care.*
Amniocentesis, abortion by, Sept., 470
    nursing care, Sept., 473
Amputation, effect on somatic identity, March, 59
Anemia, testing newborn for, Sept., 516
Anomalies, congenital, screening newborn for, Sept., 512
Anoxia, in cell, metabolism in, Sept., 379
Antidiabetic drugs, Dec., 612
Anxiety, acute, treatment of, Sept., 458
Aphasia, nurse's role in, Dec., 639
Arrest, cardiopulmonary, types and treatment, Sept., 406
Arrhythmias, cardiac, emergency care, Sept., 404
Arthritis, Dec., 643–652
  management of, Dec., 648
    drug treatment, Dec., 649
    exercise, Dec., 648
    rest, Dec., 649
    surgical, Dec., 650
  nursing role in, Dec., 650
  rheumatoid, Dec., 643
    clinical manifestations, Dec., 644
    juvenile, Dec., 646
    pathology, Dec., 643
Arthroplasty, hip, total, March, 107–116
  knee, total, March, 117–125
Aspirin, in arthritis, Dec., 649
Assaultive behavior, emergency management, Sept., 464
Assessment, by primary nurse, June, 285
Assessment, nursing, for failure to thrive in newborn, Sept., 558
    in head injury, Sept., 392
    in spinal cord injury, Sept., 398
    of pregnant diabetic, Sept., 493
  of chronic patient, in relation to sexuality, Dec., 678
  of diabetic patient, Dec., 607
    of newborn, Sept., 537–539
  of social isolation of patient, Dec., 576
  of stroke patient, Dec., 633
Asystole, treatment, Sept., 407

Atresia, choanal, emergency care, Sept., 442
esophageal, emergency care, Sept., 443
Atrioventricular block, treatment, Sept., 409

Baker Pavilion, New York Hospital, reorganization of service in, June, 235–245
Bilirubin determinations, in newborn, legal significance, Sept., 529
Body image, effect of war injury on, March, 61
Brain syndrome, acute, emergency treatment, Sept., 459
Breathing, pursed lips, for emphysema patient, Dec., 619
Brooke formula for treating burns, Sept., 450
Burns
analgesics in, Sept., 448
complications of, Sept., 453
early treatment of, Sept., 447–455
fluid therapy in, Sept., 449
Brooke formula, Sept., 450
technique, Sept., 451
Rule of Nines, Sept., 449
treatment of wound, Sept., 453

Cancer
diagnosis, stages of reaction to, Dec., 627
emotional crisis due to, Dec., 625
long-term care in, Dec., 623–631
role of nurse, Dec., 629
maxillofacial, surgical treatment, March, 137–151. See also *Maxillofacial cancer.*
primary care in, Dec., 623
secondary care in, Dec., 623
tertiary care in, Dec., 624
Carbohydrate metabolism, in pregnancy, Sept., 490
Cardiac arrest, treatment, Sept., 406
Cardiac care, clinical specialist in, Dec., 723
inservice education by, Dec., 724
patient teaching by, Dec., 726
emergency, Sept., 401–411
Cardiac dysrhythmias, emergency care, Sept., 404
Cardiac emergency, nature of, Sept., 402
prevention and treatment, Sept., 403
Cardiac massage, in infant, Sept., 445
Cardiac tamponade, emergency care, Sept., 428
Cardiopulmonary resuscitation, in infant, Sept., 444
Carotid artery, rupture of, as complication of radical neck surgery, March, 163
Catheter, subclavian, placement of, for intravenous feeding, March, 167
umbilical, for intravenous therapy of newborn, Sept., 541
CCU, clinical coordinator role in, June, 258
Cell, anoxic, metabolism in, Sept., 379
Central nervous system insult, observation tool for use in, Dec., 743–749
Cerebrovascular accident. See *Stroke.*
Cervical lymphadenectomy, radical, for maxillofacial cancer, March, 139. See also *Maxillofacial cancer.*
Cervical pharyngostomy tube, care with, March, 141
Cesarean section, for placenta previa, Sept., 481
Charnley hip prosthesis, March, 108
Charting, importance of, in newborn ICU, Sept., 529
Chest, injuries to, emergency care, Sept., 425–430
Children, diabetes mellitus in, Dec., 587–603
rheumatoid arthritis in, Dec., 646
Choanal atresia, emergency care, Sept., 442
Chronic illness, patient with, Dec., 571–681
Clavicle, fracture of, emergency care, Sept., 436
Clinic, outpatient, humanizing, June, 306
nursing role in, June, 307
Clinical coordinator
areas of responsibility, June, 257
role of, June, 204, 257–265
in medical-surgical units, June, 263
in pediatrics, June, 261
in specialty care units, June, 258
Clinical specialist
as educator, Dec., 715–722, 723–733
cardiac, Dec., 723
cost of employment of, Dec., 687
quality of, Dec., 688
faculty appointment for, Dec., 708
goals and roles for, Dec., 686
planning and implementation for use of, Dec., 686
psychiatric, as head nurse, Dec., 757–764
role in emergency department, Dec., 735–742
role of, Dec., 683–764
as consultant, Dec., 751–756
confusion in, Dec., 711

Clinical specialist (*Continued*)
role of, expansion of, Dec., 709
in assisting nurses to teach patients, Dec., 730
in crisis intervention, Dec., 736
in emergency department, Dec., 735–742
in inpatient pediatrics, Dec., 706
in nursing service, June, 204, 231
in outpatient child psychiatry, Dec., 708
role fusion for, Dec., 703–713
team services of, Dec., 691–701
effectiveness of, Dec., 698
implementation, Dec., 693
in consultation, Dec., 694
in direct patient care, Dec., 697
in referrals, Dec., 698
in teaching, Dec., 696
Clinitest, use in urine testing, Dec., 597
Coitus during pregnancy
literature on, Sept., 502
nurse as advisor, Sept., 501–507
nurses' teachings on, Sept., 503
Collaboration, nurse-physician, June, 206
in developing care standards, June, 219–225
Communication system in decentralized nursing service, June, 251
Congenital anomalies, screening newborn for, Sept., 512
Consciousness, level of, observation of in nervous system insult, Dec., 747
Consultation
as service of clinical specialist teams, Dec., 694
definition, Dec., 751
role of clinical specialist in, Dec., 751–756
Continuing education, June, 325–335
mandatory vs. voluntary, June, 332
nontraditional approaches to, June, 333
program planning for, June, 327
responsibility for, June, 329
vs. inservice education, June, 327
Contraceptive teaching, after abortion, nurse's role, Sept., 475
Contraceptives, effect on VD spread, March, 79, 81
Control system, patient care system as, June, 308
Coordinator, clinical, role of, June, 204, 257–265
nursing care, for psychiatric service, June, 296
Core committee, for decision-making within public health agencies, June, 355–359
Counterculture, health of young adults in, March, 15–23
Counterculture (*Continued*)
pregnancy and, March, 67–76
Cricothyroid stab, Sept., 419, 421
Crisis, acute, intervention to prevent isolation in, Dec., 580
due to diagnosis of cancer, Dec., 625
Crisis Intervention Team, function in emergency department, Dec., 736
Crutchfield tongs, Sept., 396, 398
tray for, Sept., 397
Cyanosis, in newborn, Sept., 538

Death, of newborn infant, Sept., 524
Decentralization of nursing service, June, 205, 229, 247–255
administration responsibilities, June, 249
clinical responsibilities, June, 250
role of division head, June, 250
Decubitus ulcer, in multiple sclerosis, Dec., 661
Delirium, emergency treatment, Sept., 459, 462
Delivery of infant
choices in, for counterculture youth, March, 74
nurse's role in, Sept., 510
selection of time for, in pregnant diabetic, Sept., 497
Depersonalization, as result of illness, Dec., 578
in long-term illness, Dec., 582
Developmental tasks, of young adulthood, March, 6
relation to adult diabetes, Dec., 610
Dextrostix, use in testing newborn for hypoglycemia, Sept., 517
Diabetes mellitus
adult, Dec., 605–615
assessment in, Dec., 607
classification, Dec., 607
complications of, Dec., 613
developmental tasks and, Dec., 610
diagnosis, Dec., 607
diet in, Dec., 612
oral drugs in, Dec., 612
pathophysiology, Dec., 606
pregnancy in, Dec., 610
therapy, Dec., 612
juvenile, Dec., 587–603
chemical, Dec., 588
control of, Dec., 594
diet in, Dec., 596
etiology, Dec., 588
insulin reactions in, Dec., 598
ketoacidosis in, Dec., 591
overt, Dec., 598
pathophysiology, Dec., 590

Diabetes mellitus (*Continued*)
juvenile, stages of, Dec., 588
teaching program in, Dec., 601
urine testing in, Dec., 596
pregnancy in, assessment of patient, Sept., 493
care during labor, Sept., 498
care in, Sept., 489–499
control during, Sept., 494
postpartum care, Sept., 498
risks of, Sept., 491
selection of delivery time, Sept., 497
Dialysis, shunt care in, March, 129
Diaphragm, hernia of, in newborn, emergency care, Sept., 444
rupture of, emergency treatment, Sept., 430
Diaphragmatic breathing, for emphysema, Dec., 620
Diet
and young adults, March, 98
in juvenile diabetes, Dec., 596
mucusless, March, 99
Zen macrobiotic, March, 100
Disengagement, Dec., 576. See also *Social isolation.*
Dislocations, emergency care, Sept., 438
Disorientation, in long-term illness, Dec., 583
Division head, role of, in decentralized nursing service, June, 250
Drug abuse
emergency room nurse and, March, 38
hazards of, March, 34
in young adults, March, 25–40
nursing implications, March, 37
patterns of, March, 26
psychosocial forces behind, March, 35
Drug addiction, in newborn, Sept., 536
Drug intoxication, emergency treatment, Sept., 460
Drugs, frequently abused, table, March, 28–33
use vs. abuse, March, 25
Dysarthria, nurse's role in, Dec., 639
Dysrhythmias, cardiac, emergency care, Sept., 404

Eating, rituals and realities, March, 91–104
Ego, work of, in young adulthood, March, 6
Elbow, fractures of, emergency care, Sept., 437
Embolism, fat, March, 191–198. See also *Fat embolism.*
Emergency, cardiac, nature of, Sept., 402
preventing and treating, Sept., 403
Emergency department, role of psychiatric clinical specialist in, Dec., 735–742
Emergency Medical Council, state, Sept., 375
Emergency nursing, Sept., 375–466
airway establishment, Sept., 413–424
indications for, Sept., 415
burns, Sept., 447–455
cardiac care, Sept., 401–411
chest and abdominal injuries, Sept., 425–433
fractures, Sept., 435–438
head and spinal injuries, Sept., 389–399
neonatal respiratory problems, Sept., 441–446
of infant in respiratory failure, Sept., 543
orthopedic injuries, Sept., 435–446
psychiatric, Sept., 457–466
shock, Sept., 377–388
Emergency room, admission of injured patients to, Sept., 390
Emergency room nurse, role with drug abuser, March, 38
Emphysema
diaphragmatic breathing for, Dec., 620
pursed lips breathing for, Dec., 619
respiration in, Dec., 617–622
mechanisms of, Dec., 617
Employers of nurses, responsibility for continuing education programs, June, 330
Endotracheal intubation, Sept., 419, 420
Esophagus, atresia of, emergency care, Sept., 443
Ethical considerations, in neonatal intensive care, Sept., 521–531
Euthanasia, for newborn, Sept., 525
Evaluation, of psychiatric patients, by nurse practitioner, June, 318
Exercises, for arthritis, Dec., 648
Experimentation, by young adults, effect on health, March, 17
Eye, manifestations of juvenile arthritis in, Dec., 646

Face, disfigurement of, by radical surgery, March, 137. See also *Maxillofacial cancer.*
Failure to thrive, Sept., 557–565
Family, high-risk, maternal and infant care in, Sept., 467–565
of high-risk infant, involvement in care, Sept., 546
Fat embolism, March, 191–198
effects of, March, 192
nature and etiology of, March, 191
nursing care, March, 196

Fat embolism (*Continued*)
prevention of, March, 193
treatment of, March, 194
Father, prospective, in counterculture, March, 71
Feeding tube, cervical pharyngostomy, care of, March, 141
Feedings, oral, for high-risk newborn, Sept., 539
Fetal-placental function, in diabetic pregnancy, evaluation of, Sept., 495
Fistula, tracheo-esophageal, emergency care, Sept., 443
Flail chest, emergency care, Sept., 428
Fluid therapy, in burns, Sept., 449
Foam test, in evaluation of fetal maturity, Sept., 497
Food, meanings of, March, 93
Fractures, emergency care, Sept., 435–438
fat emboli as result of, March, 192

Glomerulosclerosis, in diabetes, Dec., 613
Gonorrhea
course of, March, 83
diagnosis, March, 84
incidence of, March, 78
treatment, March, 84
Gout, Dec., 645
Group therapy, as nursing activity on psychiatric service, June, 299

Haight-Ashbury Free Clinic, heroin addiction treatment program, March, 46
Hallucinogenic drug intoxication, emergency treatment, Sept., 460
Hallucinogens, frequently abused, table, March, 28–29
Hand, injury to, emergency care, Sept., 440
Head and neck, cancer of, March, 137–151. See also *Maxillofacial cancer.*
Head injury
assessment in, Sept., 392
emergency care, Sept., 391
wound treatment in, Sept., 395
Head nurse, management training course for, June, 237
psychiatric clinical specialist as, Dec., 757–764
workshop program for, June, 269
Health, of young adults, in counterculture, March, 15–23
experimentation and, March, 17
Health care, for young adults, March, 19
nurse's role, March, 22
Hemianopsia, in stroke patient, Dec., 638
Hemodialysis, shunt care in, March, 129
Hemothorax, emergency treatment, Sept., 426
Hernia, diaphragmatic, in newborn, emergency care, Sept., 444
Heroin addiction, March, 41–52
complications, March, 43
detoxification clinic for, March, 46
extent of, March, 41
methadone maintenance program for, March, 49
pharmacologic effects of, March, 43
social implications, March, 42
treatment methods, March, 45
treatment of overdose, March, 48
High-risk family, maternal and infant care in, Sept., 467–565
High-risk newborn, Sept., 518. See also *Newborn.*
Hip, total replacement of, March, 107–116
history of, March, 107
indications for, March, 109
operative care, March, 111
operative procedure, March, 112
postoperative care, March, 113
preoperative care, March, 110
prostheses for, March, 108
staff education for, March, 115
Homicidal behavior, emergency management, Sept., 464
Hospital, standards of care in, June, 219–225
Humerus, fractures of, emergency care, Sept., 437
Hyperalimentation, parenteral
catheter placement for, March, 167
dangers of, March, 175
development of, March, 166
determinations required, March, 174
dressing changes for, March, 169
nursing role in, March, 167
patient care in, March, 165–181
solutions for, March, 168
Hyperbilirubinemia, in newborn, Sept., 536
Hyperventilation, due to anxiety, treatment, Sept., 458
Hypnotics, frequently abused, table, March, 30–31
Hypoglycemia, in newborn, Sept., 517, 536
Hysterectomy, abortion by, Sept., 470

ICU, clinical coordinator role in, June, 258
Identity, effect of illness on, Dec., 577
effects of war injury on, March, 56

Identity (*Continued*)
occupational, in war injured patient, March, 63
search for, in young adult, March, 6
sexual, meaning to war injured patient, March, 62
social, problems of, in war wounded patient, March, 64
somatic, effect of amputation on, March, 59
Identity crisis, caused by war injury, March, 53–66
Immobilization, in multiple sclerosis, problems of, Dec., 659
Immunosuppression in kidney transplant, March, 133
Incident reports, legal aspects of, Sept., 530
Incontinence, in multiple sclerosis patient, Dec., 659
in stroke patient, care for, Dec., 637
Independence, need for, in war-wounded patients, March, 60
Infant, cardiopulmonary resuscitation in, Sept., 444. See also *Newborn.*
dying, care of, Sept., 524
high-risk, emergency care in respiratory failure, Sept., 543
nursing care of, Sept., 533–547
small-for-dates, Sept., 535
Inhalation injury, after burn, Sept., 454
Injury(ies)
abdominal, emergency care, Sept., 430–432
as cause of fat embolism, March, 191
chest, emergency care, Sept., 425–430
hand, emergency care, Sept., 440
head, emergency care, Sept., 391
inhalation, after burn, Sept., 454
orthopedic, emergency care, Sept., 435–446
spinal cord, emergency care in, Sept., 396
war, effects on young men, March, 53–66
Inservice education
for abortion procedures, Sept., 471
program in VA hospital, June, 337–347
clinical courses, June, 339
equipment and technology, June, 345
leadership development, June, 341
orientation program, June, 342
program on operating room, for staff nurses, June, 349–353
program planning for, June, 327
role of clinical specialists in, Dec., 715, 724
vs. continuing education, June, 327
Insulin
deficiency of, pathophysiology of, Dec., 590
in treatment of ketoacidosis, Dec., 591
maintenance use, in juvenile diabetes, Dec., 594
reactions to, in juvenile diabetes, Dec., 598
two-dose schedule for, Dec., 595
types of (table), Dec., 594
U100, June, 367
Intensive care, newborn, Sept., 518
ethical and legal considerations, Sept., 521–531
importance of charting, Sept., 529
nursing vs. medical practice, Sept., 527
regional unit for, Sept., 522
transferring infants to, Sept., 521
Intercourse during pregnancy, nurse as advisor, Sept., 501–507
Intimacy, as developmental task of young adult, March, 7
Intracranial pressure, increased, symptoms of, Sept., 394
Intravenous feeding, March, 165–181. See also *Hyperalimentation.*
Intravenous therapy, for high-risk newborn, Sept., 541
Iridocyclitis, chronic, in juvenile arthritis, Dec., 646
Isolation, social, nursing process and, Dec., 575–586

Jaundice, in newborn, Sept., 536, 538
Johns Hopkins Hospital, changes in nursing service, June, 209–218
Johnson behavioral system model, use for knee replacement patients, March, 120

Ketoacidosis, diabetic, treatment, Dec., 591
Kidney transplant
care in, March, 127–135
emotional problems in, March, 134
immunosuppressive program in, March, 133
interdisciplinary care in, March, 134
operative procedure, March, 129
postoperative care, March, 132
rejection after, patient care in, March, 128
special unit for, March, 127
Knee, total replacement of, March, 117–125

Knee (*Continued*)
total replacement of, anatomical basis, March, 118
candidates for, March, 119
postoperative care, March, 122
preoperative patient assessment, March, 120
preoperative preparation, March, 120
prosthesis for, March, 118
rationale for, March, 117
rehabilitation after, March, 123
surgical protocol, March, 121

Labor, care during, for pregnant diabetic, Sept., 497
Laboratory tests, on newborn, legal implications, Sept., 529
Laryngectomy patient, respiratory distress in, Sept., 416
Leadership, in team nursing, June, 267–281
preparing nurses for, June, 271
Lecithin-sphingomyelin ratio, in evaluation of fetus, Sept., 497
Leg, fractures of, emergency care, Sept., 437
Legal considerations, in neonatal intensive care, Sept., 521–531
Lhermitte's sign in multiple sclerosis, Dec., 654
Long-term illness
patient with, Dec., 571–681
regression in, Dec., 581
sexual aspects of, Dec., 677
social isolation and, Dec., 575–586
planning and intervention for, Dec., 580

Macrobiotic diet, March, 100
Maladjustment, in young adult, March, 8
Malpractice, in nursing of newborn, Sept., 528
Management, course in, for head nurses, June, 237
of patient care, June, 203–323
on unit level, June, 232
Manhattan Veterans Administration Hospital, reorganization of nursing service, June, 293
Manic reactions, acute, emergency treatment, Sept., 463
Marin Open House, heroin addiction program of, March, 49
Maxillofacial cancer
defenses and reactions to, March, 155
Maxillofacial cancer (*Continued*)
meaning of, to patient, March, 154
psychologic aspects of, March, 153–158
surgical treatment, March, 137–151
complications, March, 145, 162
emotional support after, March, 147, 156
postoperative care, March, 141
preoperative preparation, March, 138
procedure, March, 139
prognosis in, March, 149
rehabilitation after, March, 148
special aspects of care, March, 160
wound care after, March, 160
Medical staff, collaboration with nursing service, in developing care standards, June, 219–225
Methadone maintenance program, for heroin addiction, March, 49
Mother and child, acquaintance process in, Sept., 549–556
care of, in high-risk families, Sept., 467–565
Mucusless diet, March, 99
Multiple sclerosis, Dec., 653–664
complications of immobilization in, Dec., 659
emotional problems in, Dec., 661
epidemiology, Dec., 655
gastrointestinal problems in, Dec., 661
genitourinary problems in, Dec., 659
nursing care, Dec., 656
pathology, Dec., 653
patient reactions to, Dec., 656
patient teaching in, Dec., 657
rehabilitation in, Dec., 662
skin problems in, Dec., 660
Muscle tone, observation of, in nervous system insult, Dec., 747
Myelin sheath, effect of multiple sclerosis on, Dec., 653

Neck, radical surgery of, for maxillofacial cancer, March, 139
Needs, hierarchy of, illness and, Dec., 578
Negligence, in nursing of newborn, Sept., 528
Neonatal period, prevention and intervention in, Sept., 509–520. See also *Newborn.*
Nephropathy, diabetic, Dec., 613
Nervous system insult, observation tool for use in, Dec., 743–749
Neurologic observation sheet, use of, Dec., 743–749
Neurologic problems, in newborn, Sept., 536

Neuropathy, diabetic, Dec., 613
New York Hospital, reorganization of nursing department in, June, 235–245
New York State Nurses Association, definition of nursing practice, June, 228
Newborn
acquaintance process with mother, Sept., 549–556
assessment of, Sept., 537–539, 558
cardiac status, Sept., 539
color, Sept., 538
in failure to thrive, 558
respiratory status, Sept., 539
cardiopulmonary resuscitation in, Sept., 444
care of, after abruptio placentae, Sept., 486
in respiratory emergencies, Sept., 441–446
dying, care of, Sept., 524
failure to thrive, Sept., 557–565
assessment for, Sept., 558
nursing intervention, Sept., 562
